Trips Fund

Round 1	£4,384.00
Total	£4,384.00 of £25,000.00

2. New Activities

A total of 22 new societies have been approved by the New Activities Committee. They have been categorised (website categories, not MGs) and received a provisional risk rating. Each new CSP will have until March to develop their core aims and objectives with the Activities Team and New Activities Committee (NAC). Each CSP will be paired with a member of NAC for mentoring.

New CSPs will be permitted to run trials of activity this term, under a general ICU risk assessment (except medium/high risk CSPs who will be required to write a risk assessment now with the support of the Activities Team).

3. Student Experience Fund

The student experience fund has seen better use than this time last year, but there is still potential to expand. A marketing campaign will be taking place over this term to re-advertise it.

The table below shows fund utilisation up to 17th January 2025.

Total Recipients	2254
Total Recipients Having Spent	788
Total Remaining	£97.6k
Total Spent	£24.9k
Average Spent	£31.62

A legitimate interest assessment (data sharing agreement) is due to be submitted to Imperial so that we can share spending and other data which the university can then use to support their Access and Participation Plan. A further update on this agreement will follow in February.
